pontoons; an artillery component of the 21st 3ds Mecz Div with 40 trucks; and an engineer unit of the GOFG from Potsdam with 4 trucks. The units left upon completion of the engineer exercise in the Dessau-ken area. See							
Commente The unit with trucks							
is known as a component of the engineer regiment of Schule, Dessau-Rosslau,	the GOMG in the Pionier was						
previously reported from the Pionier Schule, but not	in conjunction with						
engineer troops. If the information by source is cor to the number of vehicles previously observed an independent engineer battalion of the Third 1ds I	can only be 25X1						
Comment. The artillery and tank units are problem. The Gds Tank Div,	pably components of the
